Incredible machines for funfood & fastfood

## ROBOJETFLOSS

### WE REINVENTED COTTON CANDY MACHINE !

#### IT IS NOT THE MACHINE THAT WE SELL, WE SELL THE SHOW!\*

RoboJet Floss is a machine like no other. Utilizing a 3600 RPM spinning head combined with a powerful updraft fan impeller this innovation allows you to build massive cones in mid-air!

- up to 3-4 serving per minute
- heavy duty motor
- voltmeter
- reliable heating element
- easy to make GIGANTIC servings (up to 6 feet in diameter)
- plastic / aluminum pan

What you'll need is a little bit of practice and you'll make incredible tricks with the upward current of candy floss and grab all customers over to your booth!

\*message: with our equipment you will not only be able to make cotton candy, but to turn the process into a show

#### VARIOUS CARTS, IDEAL FOR ANY LOCATION AND PURPOSE:

Outdoor retail, shopping malls venues, cotton candy street artists, combo carts for funfood treats like candy apples, popcorn, ice cream and the like.

Affordable prices, attention to details, space saving compact design!

Incredible machines for funfood & fastfood

RoboJetFloss is a basic model for beginners. RoboJetFloss Pro is an advanced model for more experienced operators. Due to the "Cold Start" button it allows to serve people much faster. Perfect for locations with high traffic. RoboJetFloss Rent is a basic model with a compact unbreakable aluminum pan. Easy to explore, easy to transport.

**RoboJetFloss**

**RoboJetFloss Pro**

**RoboJetFloss Rent**

Rather than having sugar strands build up on the inside walls of the pan, as it happens with most other commercial cotton candy makers, RoboJetFloss floats cotton candy up into the air, where you can spin it onto paper cones or long sticks or plastic straws. This allows you to not only make much larger servings, but to entertain your customers in the process!

The  
New York  
Times

*«Often referred to in the press and media as "Flying Cotton Candy" or "Floating Cotton Candy" machines, these are from RoboLabs, and there's simply nothing else like them on the market. They've been reviewed by the New York Times, USA Today and various industry publications, as well as displayed at trade shows across the globe....and are now available for purchase!»*
